Set Up Tranont Defend

- 1. Log into tranont.com using your ID # and password created upon enrollment.
- 2. Click on the menu bar and select 'Defend'.

- 3. Fill out the information to activate the defend service.
- 4. Once you see the menu page as shown in image below, click on Identity Theft Protection. On the next page click on the box with your name in it to open up Cyber Scan.
- 5. To ensure monitoring of the black market, complete the information for Cyber Scan in entirety. **BE AWARE**, if you DO NOT activate Cyber Scan, the recovery services are not available to you.

- 6. Follow the steps by calling the number to complete the computer protection. The team will remotely log in to your computer and scan for any viruses and clean up any junk on your computer.
- 7. Follow the steps to set-up social media monitoring.
